Claims 1-10 are presented for examination.

The amendments and remarks filed on February 8, 2007 have been received and entered.

Claims 1-10 are rejected under 35 U.S.C. 103 (a) as being unpatentable over Dean et al. (U.S. Patent 6,166,073), the Patent Abstract of Japan and further over Hellberg et al. (U.S. Patent 6,646,001) for the reasons set forth on pages 2-4 of the office action of November 16, 2006 and the following reasons.

Hellberg et al. teach the use of the prostaglandin analogs, encompassing latanoprost as one of the species at the concentration of between about 0.00003 to about 0.5 percent in an ophthalmic formulation for the treatment of glaucoma and ocular hypertension. See the abstract and column 8, lines 21-24. The above reference also teaches the use of latanoprost at the concentration of 0.005 specifically. See example 4. It would have been obvious to a person skilled in the art to use latanoprost at the claimed concentration, motivated by the teachings of Hellberg et al., that teaches the use of latanoprost at the claimed concentration in an ophthalmic formulation as old and well known.

Applicant's arguments and remarks have been carefully considered, but are not deemed to be persuasive. Applicant alleges criticality to the specific concentration range of the claimed invention. The allegation is not well taken, considering that the prior art teaches the use of latanoprost at the claimed concentration in ophthalmic formulations as old.

The newly submitted amendment filed on February 8, 2006 necessitates the new ground of rejection.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
